

Do you value your life?

If your life is worth a ten-penny nail you need some protection from the constantly occurring visitations of murderous burglars. Every night finds a new victim and the next day finds him in our store preparing against future molestation. Just a day later—Remember that old adage, "Don't put off till tomorrow what you should do today"; but get the proper protection in one of our revolvers.

Hope For The Condor's SAFE ARRIVAL Is Given Up By Sailors

Victoria, B. C., Jan. 15.—Extreme un-
business is felt regarding the sloop-of-
war Condor, which left here on Decem-
ber 2d for Honolulu, and which, ac-
cording to advices from the British
Consul at the Hawaiian capital, re-
ceived on Saturday, has not yet re-
ached there. She left here in company
with the Wasp, and the following
night, the 3d, a terrible gale prevailed.
The two parted company off Flatery,
but a letter received from one on
board the flagship states that the ves-
sel has a terrible experience, and that
her officers had grave doubts of living
through the storm. One of the guns
was wrecked from its mountings, and
and, rolling about the decks with the
pitching the vessel, increased the dan-
ger to the men.

Some reassurance was given to those
anxious about the Condor by the the-
ory that she might have kept away
from Honolulu owing to the plague
there, but this is disposed of by the
fact that Honolulu is on the sched-
ule of ports to be visited by the Condor,
and that the officer in command could
not vary the arrangement without the
Admiral's consent. More than that, her
mail is still going to Honolulu.

The construction of the Condor
would handicap her in a heavy sea, she
being of the type of well-decked ships,
very high forward and aft and very
low amidships. The Condor carried
about 140 men, and is a brand new
ship, this being her maiden commis-
sion. The Sheerwater, destined for
this station, is a sister ship, and they
are regarded as suitable for the Pa-
cific service, where sails can be so
much employed. She had ample coal
for her voyage, and even had been ob-
liged to resort to her canvas she
would have reached Honolulu by this

time, as the record sailing time from
Laysmith to Honolulu is eighteen
days.

The Phaeton is making preparations
to proceed in the track of the Con-
dor, should no news be received by
the Australian mail steamer, which is
due on the 23d from Honolulu.

The Condor is defined in the British
Admiralty list as a screw sloop. She
was built at Sheerness, and was
launched in 1898. She is of steel, and
draws 180 feet long, has 33 feet beam,
and draws 11 feet 6 inches. Six 4-
inch quick-fire guns and four 3-pound-
ers constitute her armament. Her
speed is thirteen knots. Her full com-
plement of men is 120, and the last
Admiralty navy list gave her the fol-
lowing officers: Commander, Clifton
Slater; Lieutenants, James B. Mason,
Hay Winthrop and Henry T. V. Pro-
ctor; surgeon, Thomas H. Hartley; as-
sistant paymaster, William H. Frank-
lin; gunner, Arthur D. Abrams; en-
gineer, George J. D. Dutton.

The Condor was commissioned at
Chatham on November 1, 1900, and
practically all of her present crew
joined her at that time.

British Commissioner Hoare is au-
thority for the statement that the Con-
dor was to have sailed for one of the
Pacific Islands from this port on De-
cember 22. As yet he has received no
word from the authorities at Esqui-
malt regarding the vessel, although he
telegraphed to them reporting her non-
arrival.

Among shipping men it is not
thought that the vessel will ever put
in an appearance and the story of her
fate will perhaps remain a mystery
forever.

MAHELONA'S PLUMBER.

Solomon Mahelona, the native who
brings gladness to the hearts of
many when he delivers the warrants
from the Auditor's Department, ap-
peared in the Police Court this fore-
noon on the charge of failing to
comply with the orders of the sanitary
officer of the Board of Health. Mahe-
lona stated that he had been sepa-
rated from the plumber who had let
the matter in the hands of the plum-
ber. The work had not been done and
during this morning he had been again
to see the man and work had begun
at his place.

Judge Wilcox said he knew just how
it was. The people of the city were
in the hands of the plumber who had
a "lead pipe cinch." It was necessary
to await the will and pleasure of their
royal highnesses, the plumbers. Judge
Wilcox thereupon granted Mahelona
a continuance of a week.

RECIPROCITY WITH CANADA.

Chicago, Jan. 12.—That no fewer
than 3000 of the most prominent mer-
chants, manufacturers, bankers and
professional men of Chicago will join
in petitioning Congress to establish a
reciprocal trade agreement with Can-
ada is considered certain by Elmore
A. Pierce, who is here on behalf of
the Boston Chamber of Commerce, the
organization leading the movement.
Pierce will begin an active canvass
of the business men of the city to-
morrow.

dustrial edition is three cents to all

WHY TAKE CHANCES

It is a well-known fact that
rats are active agents in
spreading disease.
See that your premises are
free from this pest.
Some so-called rat poisons
merely serve to fatten
these rats and mice which
are lucky enough to get a
chance at it.

RATS MUST GO

Is sure, speedy and abso-
lutely certain death to rats
and mice.

RATS MUST GO

Is poison, and a real poison,
one of the kind that kills.
One can will effectually
demonstrate this fact.

CLAIMS TO HAVE BLOWN UP MAINE

Chadron, Neb., Jan. 14.—Information
from Pine Ridge Agency reaching
Chadron today casts some light on the
destruction of the battleship Maine, if
the story be true. A Spaniard on a
ranch, in a drunken moment, confessed
that he blew up the battleship, hoping
to create war between the United
States and Spain, thereby throwing
Weyler out of office, the Spaniard thus
getting revenge for a personal griev-
ance against the captain general.

Shortly after the battleship Maine
was destroyed in Havana harbor a
well-educated Spaniard arrived at the
large stock ranch in Sioux county owned
by Eob Yago. He told Yago he
had been in Cuba about the time the
Maine was destroyed. Beyond that
we would discuss matters only when
in a reminiscent mood, brought on by
intoxicants. While in this condition
a few days ago he told Yago he was
Manuel de Silva Braga and was a cap-
tain in the Spanish army during Wey-
ler's campaign. He conceived the
idea that the thing to do was in some
way to cause war between America
and Spain in order to be avenged on
Weyler. He was familiar with the
harbor and knew all about marine ex-
plosives. He knew the batteries that
controlled the harbor, Braga says he
conched the button that sent the
Maine to the bottom of the harbor and
then made his escape to this country.
His story is being investigated.

ROUGH RIDER DEMOCRAT.

Tucson, Ariz., Jan. 8.—The appoint-
ment by President Roosevelt today of
Benjamin Daniels as United States
marshal for Arizona was received with
surprise, as Daniels is a pronounced
Democrat. Republicans here are thun-
derstruck at the appointment, and
don't know what to make of it. Dan-
iels was a Rough Rider and was with
Roosevelt at San Juan hill. He is well
known as a courageous and efficient
officer. He was for three years night
marshal of Cripple Creek, Col., during
the camp's stormy period. The ap-
pointment is believed to be a personal
matter with the President.

Frederick Naive, who was today ap-
pointed United States Attorney for
Arizona, is one of the brightest and
most popular young attorneys of the
Territory. He was district attorney
of Santa Cruz county and secretary of
the Arizona code commission. His ap-
pointment is a complete surprise to
Arizona politicians.

COLUMBIA'S NEW PRESIDENT.

New York, Jan. 13.—Columbia Uni-
versity will hold formal exercises on
April 18th to celebrate the taking of
office of the new president, Dr. Nich-
olas Murphy Butler. The feature will
be the presence of President Roose-
velt as the guest of the university.
He has been a warm personal friend
of Dr. Butler for many years, and this
is the reason for his being prepared
to give the program. In being pre-
pared, the students will be appoint-
ed later. The exercises will be of
much the same character as those at
the installation of Seth Low in 1890.

Birmingham, Ala., Jan. 13.—A spe-
cial to the Age-Herald from Greens-
boro, Ala., says: Captain Richmond
P. Hobson has not resigned from the
Navy. He has merely applied for a
year's leave of absence, and expects
to devote his time to lecturing, having
had many handsome offers made him
to enter upon this line of work.
